P^o 662 of 1846.

(P)

W. L. ^Warren, Esquire,

Acting Collector

Dharrwar.

Sir,

I have the honor with reference to your Annual Report, No 383, of 12th Ultimo, for the official year 1844/5 to request additional information on the following points.

Report paragraph 1. Reduction on rates pending the Survey, of P^o 1353. 1.9. On what principle, and in what ^{as} sections, chiefly, have these reductions been made?

Same paragraph. Increase of a Settlement, No 1354. 4.10. On what portion of this is an account

of increased assessment ex-
clusive of Hoolbunne &
in what Talookas principally
had it been made, and on
what principle have the in-
creased rates been fixed?

Same paragraph. The re-
duction by the Survey is
given as follows:

Hoolbunne Talooka 18 Villages 2,457.2.1

Now formed — 80 — 2 — 38,438.3.10

Total — 40,889.5.11

Deduct increase — 7,215.3.3

Balance decrease P^h — 33,674.2.8

Decrease from other } — 24,647.4.4
Caused —

Total decrease — 58,321.7.0

making the decrease, exclu-
sive of the Survey apparently
P^h 24,647.4.4, as above, instead of

P^h 17,432.2.0, as in the reports

Report paragraph 2. Differ-
ence between the prima
faced

rated and those fixed by the
Suror. Pt 97148.11.3. The
reduction in the Government
Revenue appearing as above
to be only about Pt 53674.2.8,
the two calculations can hard-
ly, it would appear, have
been made on the same prin-
ciple, which, requires expla-
nation.

Same paragraph. Alienation
~~Land Revenue~~ ~~to~~ ~~the~~ ~~Government~~ of
attached Villages. Pt 2182.13.1.
Now is this shown as an
increased alienation? the
attachment, if final, would
cause the transfer of the
Government share of the
Revenue from this head to
that of Revenue for collection,
but the alienated items shown
apparently have been left
as previously.

Same paragraph B. Estimated amount of Purbhara Huker
Rs 24,18.2.7. What Huker
are there principally, and
on what Column of State-
ment A had this increase
been entered? A memorandum
of the adjustment of these
large items in the several
Columns of allocations is
requested.

Report paragraph 5. An an-
alytical statement of the
amount recommended to be
written off in the form called
for in the Government letter
No 3007 of 24th October 18/12, is
required.

Report paragraph 9. In what
Villages have new lands
been granted to Shetwind,
and have the grants been
sanctioned by Government

as would appear to be unnecessary?

Page 283.
Vol 172/45

Report paragraph 16. The Government letter, No 1334, of 25th March 1845, conveying their decision on Mr. Hume's system of introduction, the underwriter would seem, with reference to the remark at the conclusion of this paragraph, to have escaped attention.

Report paragraph 39. Advanced to officiating functionaries of all classes to the extent of the money allowances payable to them, was contemplated in the proposal authorized in the extract transmitted with my endorsement, No 96 of 19th January, 1846. An extract in Malabaratta is now under

Shirima

showing the course adopted
in the Decree, and opinion
requested whether the prin-
ciple gives for such advan-
ces might not be adopted
also in Sharnar.

Report paragraph B 46. What
orders of Mr. Goldsmid's are
here alluded to? a copy of
them is requested.

Report paragraph B 48. What
shifts are now resorted to,
in order that the whole of
the accounts in the Zillah
may tally? The new ^{up} forms
I had hoped might
have obviated these, as found
to be the case wherever they
are adhered to; and as your
Dufftardar is spoken of
with commendation, I am
hardly able to comprehend
how

How such shifts are still
permitted to exist. A spe-
=cimen of what is alluded
to is requested with a view
to the requested amendment.
Analytical Statement B. Nos

5 and 6. These would ap-
=pear to be items for ad-
=justment under the head
of Remissions at the June
unabridged. Under what
~~circumstances~~ were they
retained so as now to come
under the head of a balance
to be written off.

No. 7. Paper 559.12.6 due
by the Roundgate Jaffurda
How has this amount been
fixed?

No. 8. Payments on account
of P&G allowance would
seem to be unadjusted or
advanced, how therefore

Shewing the course adopted
in the Decree, and opinion
requested whether the prin-
ciples proposed for such advan-
ces might not be adopted
also in the same.

Report paragraph B 46. What
orders of Mr Goldsands are
here alluded to? a copy of
them is requested.

Report paragraph B 48. What
shifts are now resorted to,
in order that the whole of
the accounts in the Zillah
may tally? The new &
forms I had hoped might
have obviated these, as found
to be the case whenever they
are adhered to; and as your
Defturdar is spoken of
with commendation, I am
hardly able to comprehend
how

How such shifts are still
permitted to exist. A spec-
imen of what is alluded
to is requested with a view
to the requested amendment.

Analytical Statement B. Nos
5 and 6 These would ap-
pear to be items for ad-
justment under the head
of Revisions at the same
unabided. Under what
circumstances were they
retained to as now to come
under the head of a balance
to be written off.

No. 7. Rupees 559.12.6 due
by the Boondole Jaghedar.
How has this amount been
fixed?

No. 8. Payments on account
of Police allowances would
seem to be unadjusted &
advanced, how therefore have

have they been retained as
balances? and if actually
balances, permitted to lay
over on account of un-
allowances, have the al-
lowances been reported for
the sanction by Government
or otherwise?

No 11. As the Government
letter, No 2970, dated 25th June So. 135
1845, referred to on the Subj^{ts} ^{1st Mar '45}
of this balance, cannot
be traced in this office, a
copy of it is requested.

No 14. Paper 18544.2.7 on
account of the Immorals
of the Amherst District.
Why is the settlement
of these Immorals which
has been laid over for
more than six years, still
deferred?

Lager.

Lager Report No 1604. In
the accompaniment of
the Acting Collector's letter
No 1632, of 19th December last
the amount of abolished
taxes is stated at Rs 108,467/107.
Explanation of the cause
of the discrepancy in the
amount now given, and
compare with that in the
said statement, both in
the total and in the com-
ponents headings, is re-
quested.

Atmadingger Dist. I have the

To

C. H. Townsend Esquire
Revenue Commissioner S. D.

Sir,

I have the honor to acknowledge the receipt of your predecessor's letter, No. 603, dated 10th Ultimo, and in reply to forward the accompanying explanations on the points alluded to therein, in the summarised reports of the Collectors for 1878.

Report para. 1. - The sum of Rupees (3531-4-9) thirteen thousand five hundred and thirty one, Annas four, and pie skins, would seem to have been improperly entered as decrease, ~~in account of~~ "Reduction of Assessment, pending the result of the Survey". - The reductions that were made on this account, amount to the sum of Rupees 1218-3-0

Remitted to a person who had drunk a well - 10-10-3

Returned as "Lajil" paid to the ryots of right-
teen Villages in the Hooloe talook, being
the difference between the old and new
Survey rates

3019-1-8

Decrease on account of Eskalee on Jone
lands, and which will not fall due for
two years more. -

4000-2-8

The remaining sum is on account of a
bad crop of grain, such as Maungses &c
Hoolbunnies &c

Same para. - There has in reality been no
increase in the Assessment. the sum of four
thousand and forty seven Rupees (4474-0-0) was col-
lected from several ryots, in addition to their

usual assessment, as it was found on the inspection of the crops, they were cultivating more land than was entered in their names.

Same para. - The decrease should have been entered at Papes (24047-4-4) twenty four thousand, six hundred and forty seven Annas four and pice four, and not Papes (14432-2-0) Seventeen thousand, four hundred and thirty two & two annas.

Report para 2^d. - On the lapse of a Mahal, Village, or of lands to Government, the "Khumal Beriz" are brought to account, tho the actual revenues may be much less than that sum, the survey rates having now been introduced, the value of the Villages &c have been fixed, and the difference shown arises between the "Khumal Beriz" and survey rates, and not between the Actual Revenues and survey rates.

Same para. - "Alienations, Gaom Mujea "Nemnook of attached Villages." The alienation was not final, the Villages of Yelmattee and Kollabapoor have again been alienated.

Same para. - Estimated Amount of Purbhara Haki, entered in Column C of Statement A. Vide annexed Memorandum.

Report para 5th. - The letter alluded to, cannot be traced on record, a copy, it is requested, may be furnished for this office.

Report para 9th. - Land to Chatsundees were granted as follows.

	acres	Guntas	Annas.
In Baisapoor Talook, Panigul.	7-	26-	4 1/2
" Kullebyli, " - Road	6-	24-	0
Value Papes 25-		14-	10- 7 1/2

The ²⁵⁷ ~~Subar~~ ^{Subar} of Bugapur having died, his
 heir resorted to Government, there being how-
 ever no person to perform the duties of the
 Village, the Rajah petitioned for a Shetundee
 to be entertained, and Mr. Shaw, under date 3^d
 September 1844, directed one to be employed, and
 the lands of the deceased Subar given to him
 for his services. - The Shetundee of the Village
 of Mullerbyl possessed only ^{a. 10. a.} 3-15-4 of land
 from which he derived the inadequate com-
 pensation of One Rupee per annum, he con-
 sequently petitioned to be allowed to throw it
 up, but as the services of a Shetundee could
 not be dispensed with in this Village, lands to
 the following extent were assigned him, in addition
 to his own. -

Cultivated land	0-24-3
Waste Do.	4-26-4
	11-10-7

but the sanction of Government does not appear
 to have been obtained previous to its grant. -

Report para 10th. - The Government letter
 quoted No. 1324, of 25th March 1845, does not
 appear to be in any way applicable to Mr.
 Evans's suggestion, at the conclusion of the 10th
 page of this report. - In consequence of the
 difficulty experienced in procuring the sanction
 last year of the extra barons to survey the
 cultivated & waste land, no application was made
 for them this year, and Captain Wingate
 has paid them from the Survey funds. -

Report para 39. - The Extract para 6,

"accounts to be made up. - Though a little reform
"in the Offices of account in Bombay would
"easily render such an arrangement unne-
"cessary. - The consequence of this shift is
"that no remittances can be made by the Mahal
"during on the days intervening between the
"closing of his books, and the 1st of the following
"month, that he has thousands of Rupees cir-
"culated, and he is not allowed to retain more than
"Rupees (1000-/-) One thousand in his treasury,
"nor can the Amildar remit to the Mahal.
"during on those days, without entering the same
"in his Account Khata, and from that arises
"as a shift the Tulsinat and Unamut Khata,
"and from them will arise the question much
"litigated between Mr. Deline and the Collector
"of Belgaum, whether some thousands of Ru-
"pees were entered or not, and I do not know
"whether the question has ever yet been settled."

These shifts must exist, and
"are inherent in the present system, and will
"be found to exist every where. - I am unable
"to comprehend, how even the best Duffadar
"could prevent them, and until I read the Rev.
"our Commissioners remarks, I always thought
"that all responsibility, blame, and credit for
"the accounts, rested with the Collector, and that
"it was to him, and not to the Duffadar, that the
"Revenue Commissioners looked for the accounts
"being correct."

Analyticals

Analytical Statement B Nos 5 & 6.

These items have been borne on the books of this Collectorate since 1837/38, and 1840/41, the Ryots petitioned long after the Settlement was made, and enquiry were found to have been overpassed, and their crops to have failed, so these sums were entered in the statement of balance outstanding, and laid over for further enquiry, till last year, when they were finally investigated and disposed of -

No. 7. - The Sur Deshghat of the Khondgole Pergunah, leased to Government in the time of the Peshwa, was one of the trucks collected by Government, as Sur Desh was an item of the Transit and Town Duties levied in the Pergunah, which was annexed to the Juntundeeshah for Rs (133-4-0) One hundred & thirty three rupees, with the other houses and pergunas of the Deshghat, was collected up to the year 1837/38. When the Transit Duties were abolished, and the Jajendar refused to pay the whole one hundred and thirty three (133-4-0) rupees, and he has been allowed to keep back annually a balance on this account as the following table shows:-

No.	Period	Year	Suggested Receipts	Actual Receipts	Difference
1	10 years	-	3389-52	133	-
2	1 Month	1837/38	572 8	11 8 2	36 14 6
3	1 year	1838/39	1016	40 6	92 16 6
4	1 Ditto	1839/40	980 15 9	38 10 5	94 5 5
5	1 Ditto	1840/41	1326 8	52 2 2	80 13 3
6	1 Ditto	1841/42	1293	50 12	82 4
7	1 Ditto	1842/43	1089 9 6	42 16 9	90 3
8	1 Ditto	1843/44	1282 12	52 8 6	82 7 8
					559 12 6

No 8 - Potjee Jummabundee. - These have not been reported separately to Government. The sums were paid to officiating members from the Circumces of the Villages, and have been left over for inquiry since 1833/34, it was suggested into last year, and sanction is now requested to write it off the books of this Collectorate. - In the 14th para of the Jummabundee report for 1833/34, Mr. Harrison then in charge of this Zillah, under date 23rd October 1834, recommended that the whole of the Village Officers in this Collectorate should be placed on a sufficient scale of remuneration, this was sanctioned by Government in the 6th para of Mr. Secretary Row's letter No. 3457 dated 18th December 1834. Extracts of this correspondence are herewith sent, this appears to have been held as a general sanction for remunerating these Officers. -

No 11. - A copy of the Government letter No. 2970, dated 25th June 1835, is herewith forwarded. -

No 14. - The investigation into the Vernaculars of the Anugahing Mahal has been going over since the lapse of this Mahal to Government in 1839/40, and I would recommend that it should be allowed to remain so, until the Enam Committee have disposed of it.

Taxer Report No 404. - A Memorandum is enclosed, showing the cause of the discrepancy in the amount of taxes abolished, as entered in the Jummabundee Report, and the Statement forwarded on the 19th December last No 1032. -

S. Mansfield, Esquire.

1st Assistant Collector.

Sir, I have the honor to request that you will take measures for ensuring the punctual realization of the instalments of revenue due by each Village under your charge.

2^d By obtaining from the Mam-
ludars and Mahalkurnas periodically
from Muzawar Matamraks either
the amount from which you will be able
to ascertain at a glance the state
of the collections and you should have
immediate notice of any instance
in which the District Officer does
not assign satisfactory reasons
for more or for less than the amount
of the instalments due, having
been collected from a Village.

3^d The Mamlutar and

Mahabharui should be directed
to procure, from the Village Officers,
"Saamwar" returns, after the same
form, and you should order them
to be most careful in checking the
practice, which so often obtains, of
influential Ryots being allowed
to fall in arrears, and the amount
of previous due by a Village, on ac-
count of the early instalments
being made up by over collections
from those who are poor & friendless.

4th An inspection, at the Jamma-
bundee settlement and on other
occasions, of the Ryots receipt books
and Village accounts will, of
course, enable you to ascertain
whether the District Officers are
paying sufficient attention to
the matter, & as you may give
them on this important subject
I have the honor to be

First Assistant Collector.

Shower in Charge

I am directed to acknow-
ledge the receipt of your letter, No 663,
dated 20th ultimo, and to inform you
that, the Honble the Governor in Council
approves of your having taken security for
the completion of the work commenced
by Kama Nakh, deceased, and having
made over the land to Kama Nakh
-dew Nakh, as soon as the work is
completed. You should apply for au-
thority to write off your books the sum
of Rupees 4400. Your remuneration
forty nine.

2^d

Mr Elliott, Jagan desir-
ed .. serve, assumed an authority,

which he did not possess. when, with-
out reference to Government, he au-
thorized Karoba Naito to lay out
money on a well. Considering however,
that, the arrangement acted under what
he supposed to be the authority of
Government, and that the well is of
use to the Towns people of Hooolee, &c.

while the Naito family were too poor
to complete the work, the Governor
in Council authorizes you to continue
to keep them free of assessment.

I have the honor to be
Dear Sir,
Yours faithfully,
E. H. Townsend

To

Esq. Townsend, Esquire
Revenue Commissioner

C

Sir,

With reference to the
Gatta Extract which accompa-
nied your letter, S.F.B. dated
10th ultimo, and alluded to in
para 39 of the circulation in
the summary report for
1844/5, and since Sept 1st 67,
dated 14th instant, regarding
making advances to officiating
Hereditary District and Talu-
dary Officers, I have the honor
to inform you that, as the Re-
venues of this Zillah are collected
between the middle of December
and April it would be very in-
convenient to fix the month of
September

submitted in the Bureau, as
a basis for making any ad-
vances, I should therefore pre-
fer that the time for making
advances should, in this fall, be
limited to the months of
January and April of each
year.

I have the honor to be,
Sir, your obedient servant,
28th May 1846

W. H.

Wm. H. W. H.
Acting Collector

H.

Feb 10 1857 1840.

Mr J. Mansfield. Esq.
Acting Collector of
Harwar.

Sir,

I have the honor to
acknowledge receipt of your let-
ter dated 14th Instant; and with
reference to the explanation in
the 1st page of a sum of Rs 10.10.3
retained, as faril, to request that
you will state when this sum
was collected, and when the sur-
vey rates were introduced in the
Hobbs Talooka. Also under
what rules or authority the sum
of Rs 10.10.3 was remitted to a
person who had sunk a well.
I can discover in your letter
no reply to my predecessor's
questions.

question, of on what principle,
and in what Salor Mas, chiefly,
have these omissions been
made: I request that this
may now be furnished.

2. Deducting the four
items enumerated in your 1st
page from the sum of Papes
13531.4.9, there is a remainder
of Papes 4614.13.1, which you
state to be on account of a bad
"Crop of fruits &c. &c. Hoolbunne &c."
Is good enough to state what
portion of this sum pertains
to fruit and what to grass, or
"Hoolbunne".

3. My predecessor's
2^d question notes an "increase
of assessment, Hoolbunne &c."
P^{es} 24,806.7.10" Shown in page
3 of your predecessor's report.
He asks "what portion is on
account

"account of increased additions,
"in what Talook was made and
on what principle?" your
answer, relates to a sum of
Rs. 447...., but makes no
mention of the Talook in
which this increase took place.
Be so good as to state, if this
sum is to be deducted from
Rs. 24,806.7.10, and if the
remainder is "Koolbunee Taluk
in what Talook was this latter
increase took place. Copy of
the Government letter dated 1st
October 1842, No. 3007, is forwarded
as requested in the 2nd page of
your letter.

4. The case of the Sher
Sunder of Wullibyl, right, &
concern, to have been reported
to Government, without whose
Sanction.

Sanction so permanent a lina-
tion of the Government land
can be considered duly made.
I request that you will re-
port on what principle land
to the value of \$11.10.7 was
assigned to this Shutsunder,-
and whether you would recom-
mend any alteration in the
amount.

5. In your 2^d page, re-
plying to a question by my
predecessor as to the differ-
ence between the Annual rates
and those of the Survey, you
observe, "the difference arises
between the Annual Periz, and
"Survey rates". Do you mean
the new or the old Annual?

6. I request to be par-
tured with your opinion on,
H^{rs} Lee's 2 paragraphs on -
"Shifts"

"Shifts," and that you will quote
the orders which have rendered
a resort to these unhappy ex-
periments necessary, showing,
at the same time, how mat-
ters were in this respect pre-
viously managed, so as to
avoid them.

7. Your comment on
"No. 7" in page 6 of your letter,
does not contain any very dis-
tinct reply to my predecessor's
question "how has this answer
been fixed? The information
given by you would lead to the
conclusion that the matter
had been left entirely in the
hands of the Superintendent.
If this has been the case, I
trust you will make en-
quiry, and report, on what
principle

On principle the Jaghirdar pro-
fesses to admit the various
sums entered in the last Col-
lusion but one, of the abstract
Statement given in your letter,
and which vary in different
years from Rupees 18.8.9 to
Rupees 52.2.9, and in what a
manner he is able to prove his
Statement: as this enquiry may
occupy some little time, &
you are requested to submit
this information in a sepa-
rate report.

Paragraph 110 of Mr.
Harrison's report to Government,
dated 23^d October 1834, applied for
permission to place 'the whole
of the Village Officers' on Sir J.
Munro's scale of emolument;
Government in their reply of
13th December of that year
sanctioned

sanctioned the placing of the
"Village Officers throughout the
Collectorate on Sir Thomas
Munro's scale." The introduc-
tion of this great measure
was desired to be immediate, and
the collector was to "notice its
effect on the revenue of the
"enclosing year."

9. "That no such report
was ever made to Government,
I infer from your letter, it is
evident, however, that it should
be made now, at the entry of
the sum of Rs 392.12.10, in State-
ment B is a very irregular &
method of disposing of such
a question."

10. "I am not aware of
the circumstances under which
the investigation of the Munro
of the demerit, which was
made

made over, to the Swan
Committee, or when that
arrangement took place.

If I am wrong in drawing
such an inference from the
expression in page 7 of your
letter 'until the Swan Com-
mittee have disposed of it',
I request that you will pre-
pare statements, exhibiting
the annual amount of these
~~disbursements as claimed, paid~~
into land, money, timber &c.,
and showing how the sum to-
tal, of Paper 1854b.2.9 entered
in Statement B, is arrived at.
These statements should
be separate for Mohab Zem-
indars; Village officers; com-
ples (including all religious,
& offices) and other or mis-
cellaneous grants.

11. Request that you
will in future number your
paragraphs.

Poma District... I have the
Res. Comd. Camp. Sig. & H. Townsend

/ True Copy)

W. Townsend
Res. Comd. Ad.

10th 1031 of 1840
Territorial Office
Revenue

29

E. A. Townsend, Esq
Revenue Commr. &c

Sir,

In reply to your letter, the
1018, dated 25th May, I have the ho-
nour to forward the following
further explanations on the several
points therein referred to.
2^d In the year 1843 it was
doubtful whether the Government
would assent to their introduction in
that year of the Revenue Survey into
30 Villages of the Hoollee Salooka. In
several references were made on the sub-
ject, in the year expired before.
Functions could be obtained. We have
ordered the collections to be realized ac-
cording to the old rates but the final
installments to be kept in deposit

and not be brought to account until
received the order of Government
in order that in the event of the new
rates being sanctioned he might
be able to return to the Regt to the
difference between the old and new
rate of agreement

3^d In this manner nine thousand
and three hundred & no pence, one
anna and four pence / 9301-1-4 were
collected & kept in deposit, but the
difference between the ~~old~~ ^{new} rate of 9300, could be
amounted to twelve thousand nine
hundred & twenty pence, 9 pence, 1 anna & 2 pence / 12320-25-7 and
when the sanction was received for
introduction, the new rate of 9300 was
impossible to return the value of
the difference between the old & new
a special sanction, and the receipt
sum of 12320-25-7 was received,
and the remaining sum of 9301-1-4
was 3014-1-3 paid by the signatories

and

and above the same was brought
to account, and therefore the ~~the~~
same in this year is by that
1844/45
amount in the form
L¹ ⁴ The sum of ¹³ 10-10-3 was im-
puted to the ¹³ 2nd of Dec^r under the stand-
ing name, received with your letter
now incorporated ¹⁶ 15th Dec^r 1844,
No. 1628, under 1st of the circular, No. 1003, d-
ated 18th Aug^r 1844, which accompanied
to the Department of Land Revenue, in the
General. The whole holding of the
undivided estate consists of 14 acres,
7 Guntas and 15 Annas of dry
cultivation, as per the
files 21-4-9. It was made over
to him on lease for 30 years at
the rate of 10-10-3, or, Rs. 10-10-3
in consideration of his having
sunk a well at a cost of Rs. 3000,
and planted a mango grove be-
sides

slides bringing as much of
the land as could be watered
from the well, under
irrigation.

5th The reductions ab-
(Part 1) -
cluded to by you were made
in all the districts with the
exception of 8 out of 100 and
48 villages of A. B. C. in to
which the money entered have
been introduced, and no re-
duction. Wherein convenience
necessary; they were made
on no fixed principles but
according to the expediency
and merits of each in-
dividual case, as, for
instance, there is there up
the land they cultivated
last year in consequence of the
heavy water and, in other

27, 11, 13

applied offering to cultivate
the lands in question at a
reduced rate, were allowed
to do so, at a small per-
centage of Revenue more
than that such land should
fall under, other applicants
petitioning, were allowed
to retain the lands at
a reduced rate pending
the introduction of the
Survey rates, the regard
being paid in each case that
the rates should not be less
than what it may be ex-
pected will be fixed by the
Survey, on the same plan
as your predecessors were

mentioned in his letter,
No 1066, dated 5th October
1943, for bringing waste
land under tillage

8th For a better under-

standing of the subject, I
beg to enter, in detail, each

of the items comprising the
total sum of Rupees three
thousand, five hundred

and thirty one, and

more four paise (13,531-49)

alluded to in the 2nd para of
your letter.

12-1-2, Recd. 24-8-10-7-10

8th Items No 1 & 5 of the above

form the increase of No 4 47-0-2

alluded to in the 2^d of plan

ation, in para 1st of the summary

bundle Report, in my letter

No 679, dated 14th May last, this

increase took place in the

Salwood, but principally in Brought

from a field

9th The remainder of

Brought into

Kelly, alluded to in
the 4th para. of your letter is
having represented the in-
adequacy of his remuneration,
(land yielding one Rusee per
annum), was about to throw
it up, he was therefore offered,
if he will ^{be} ~~be~~ ^{remain} ~~remain~~, land which
it was calculated would yield
one Rusee per annum. This
offer he accepted and the land
which in 1844/5 yielded a
return of Rusees 11-10-0, being
as near as possible to 12 Rusees
per annum, and considered
sufficient remuneration was
given to him. It is not considered
it necessary to make any alter-
ation in the amount at pre-
sent pending the result of the
survey. In the mean time we
should you consider it desir-
able I will report this case

to Government for special
sanction.

16th With reference to your
5th para, I beg to state that
the animal being alluded to
by me is the apfunt fixed by the
the haggers and themselves,
is taken from the books of the
District & Village Officers at
the time the Village or has
belonged to the British Govern-
ment. I believe the two being
known in the Decan as the
"Tan-kab" & "Kinnal" were
never introduced in the S. M.
Country.

17th In reply to your 6th para
calling for my opinion on
Mr. Trevel's two paragon Skips
I beg to state, that I cannot
agree with that gentleman
that there is any necessity for
changing the present sys-

The reason of the
Mabalkury's account being
closed on the 25th is to enable
them to reach the Mamulidars
before the end of the month,
who enter them in his books
before closing them for the month.
The talooka books and the
abstract of the month's transac-
tions sent to the Hogossi, and
thus made to correspond, which
is a matter of great importance
and saves both time & trouble.
This could not be done if the
Mabalkury did not close his
books till the end of the month;
for, in that case, his account
could not be incorporated in
the Mamulidars till the 3^d
or 4th of next month, and would
not therefore appear at all in
the entries balance sheet.

— 228 —

used on the last day of the month. The latter however would include the Mahab's account of the preceding month, so that to preserve the Hogvor account for any month, say June, it would be necessary to strike out of the Mahab's balance sheet for that month, the Mahab's account for May and include his account for June taken from amongst the entries in the Mahab's balance for July. In this system there would be no longer any correspondence between the Salook & Hogvor accounts in which could hardly fail to beget inaccuracy and confusion without leaving any counterbalancing advantage.

13th The balancing of ac-

guards at particular periods
to prevent inaccuracy, and
the system which most effec-
tually provides against that
is the best. The existing plan
seems to secure all that can be
desired in this respect and I
do not understand what in-
convenience can arise from
the Secretary closing his
books on the 25th. His transac-
tions between this date and
end of the month appear it
is true in the old year's account
of the following month but
most properly it is not in
that month they are entered as
the same is done with other
accounts. The former accounts by
no other plan, will in my opi-
nion be possible to make there-
last fully with the 40 year
accounts, and I beg strongly

to recommend that there
should be no alterations
made

14th In reply to your 8th
29th paras, I beg to point out
that the sanction for placing
the Village officers through
the collectorate on Sir Thomas
Munroe's scale, does not app-
to have ever been carried on
in this collectorate and is ab-
surd at this distance of time
to account for its non intro-
duction, nor do the reasons show
that anything further was done
on the subject, I should how-
ever suggest that the enquiry
into the mode of remunerating
the Village & district officers
be left to the Revenue Com-
each individual case requiring
immediate attention being
then, reported by this (Revenue

Sanction according to Mr.
Charles' scale

15th In accordance with
the request contained in your
Office, I beg to forward the
memoirs exhibiting the annual
amount of the money borrowed
from the Bank. There does not appear
in the records of this office any
official correspondence, and
in view of the inquiry into these
matters to the Finance Committee,
and it has, I believe, a view to
reconcile in it between Mr. Brown
and Mr. Goldsmith. I have inquired
of Mr. Brown that
the Finance Committee have more
records in their custody connected.

I hope the inquiry will
and I shall therefore commence
inquiring as to the
matters now

16th From the above it is
seen to

= men to you will observe that
the sum actually advanced, &
in a final settlement, amount
to Rupees 21312-2-5 as obtain
ed from the detailed account
now produced, being a differ
ence in excess of that formerly
stated, of Rupees 2767-15-10, &
on the whole much less than the
sum claimed for the six years
from 1839/40 to 1844/45 of Rupees
5539-0-1; these statements do
not include the alienated
& leased lands which the se
veral zamindars to have been
allowed to retain, & supposing
in the same quantity they had
made their late masters re
stated in the Village account
17th In conclusion they
forwarded statements to give
recoverable balances to be set
off on account of the Land

Layer Revenue in the
form required by the former
mounting to Rs. 5332-2-3
and the latter to Rs. 3582-3-6.
It has been necessary to add in
the column to each of these
items showing the "amount
laid out for further enquiry"
in order that the totals of the
sheet may tally.

Revenue

Man. Fund
Net Collection

No 1673 of 1846.

To

J. Mansfield Esquire.
Acting collector of
Dharwar.

Sir,

I have the honor, with
reference to the Annual Revenue
Reports of your Zillah for 1845,
to request that you will inform
me in what month the settle-
ment of the several Talook had
been made by the officers men-
tioned in paragraph 14 of
your predecessor's letter, No 383,
dated the 12th March last.

2 (According to the re-
commendation, in paragraph
5 of the same communication,
for writing off the irrecoverable
balance of Papers 5,332.2.3, of
which the details are given

in Statement B, be good enough
to state, when, and by whom, this
amount was ascertained to be
irrecoverable; and in what man-
ner the inquiry was conducted.
Similar information is also
requested with respect to the
Sum of \$3,582.36 (paragraph
7 of your predecessor's letter Re-
port, No. 404, of the 19th March last)
which is said to have been, re-
ceived by Messrs. Messrs. Messrs.
"Hild, Robertson and Goldsmith,"
and "is considered irrecoverable."

3. As more illustra-
tion of the nature of the in-
formation required, I beg to
enclose a copy of a letter which
I had occasion to address to
the Director of P. & A. S. 11/11/42,
dated the 23rd Ultimo, in the frauds
that have occasionally been
practised

practised in the disposal of
outstanding Balances show
the necessity of the utmost
care and vigilance on the part
of the European Officer by whom
such inquiries are made.

Dona. I have the

produced that the following letter he addressed to
the Revenue Commissioners of the Southern Pro-
vinces, in reply to his letter, N^o 1880, dated the
21st September 1846, Submitting the Annual Re-
ports of the Revenue Collectors for the year 1844/45

To N^o 3314/1847
Mr. Townsend Esq.
Revenue Comm^r of S. D. Div.

I am directed by the
H. the G. C. to acknowledge
the receipt of your letter, N^o 1880,
dated the 21st September 1846,
submitting the Annual Reports
of the Acting Collectors of the
Revenue and his Assistants, for
the year 1844/45, and to convey
to you the following observa-
tions and instructions on
the subject of them.

1. These Reports are in-
conveniently with the same
voluminous series of Explan-
atory Correspondence which
has called for considerable
time & exertion
on some recent and similar
occasions with a view to its
future avoidance

2. The frequent change

A ~~change~~ change of the
collectants in the season
reported on is to be regretted.
It must doubtless have
been unfavourable to its duties
factory administration.

The hope of the Govt.
that a uniform and fixed
principle will gradually be
introduced for the enumeration
of villages in Statement A,
and his approval of going sug-
gestion with that view in
reference to the Collectants
of Rhuraduggur has been

Communicated to you -
Letter No 3290 dated the 12th Instant

5. The land Revenue is
realizable by Government Exhibit
a decrease of Rs 66,638, and
the Revenue a decrease of
Rs 8,315 - being a net-deficien-
cy of Rs 58,323, from the
previous Revenue of Rs 1,17,423.
6. To half of the decrease
in realizable Revenue arises from
diminished Cultivation. This
appears

Rev. Comm^{rs} para: 6.
Col^l - - - - - 1

Rev. Comm^{rs} para: 10.
Col^l - - - - - 1.

appears to have taken place
in all the Talote districts
in which the new Survey Ad-
ministration has been introduced
where, as was to be expected,
there has been an increase. A
very satisfactory explanation
is given of the decrease in the
other Talotes, but as far
as it was some access from
peasant to cause connected
with the state of the assess-
ment, it may be hoped its
progress will be arrested by
the gradual ~~extinction~~ extinction of the
Survey operations to themselves.
The old system of carrying
cultivations beyond its na-
tural tendency has now, it
is believed, been ~~fully~~ ge-
nerally exploded, but the
Govt. hardly thinks it can
be necessary to caution the
Rajts against it, he considers
it will be sufficient to leave
them to follow their own incli-
nations in this matter.

Little

~~little~~, as you observe,
~~and~~ can said of the Character
of the Season Reported on,
but their very scantiness of
remarks and the tenor of the
the little that has been said
would induce the Genl to
infer that it has been on
the whole not unfavorable.

8. The improper attach-
ment, in the Acting Collector's
Report, to "Reduction of Gov-
ernment pending the Survey
Operations" of an item of
~~No 18531~~, the correct details
of which are given in Messrs
explanatory letter to which
you refer, indicates an in-
attention to precision in
points where it is of impor-
tance, and where its absence
is calculated to mislead
Government. The same properly
causing render the descriptions
given to the whole item by
the Collector appears to have
been

Rev Commr June: 8

Rev Commr June: 9.

This is sub-joined
to the 1st annex.

been only No 1318. The Govt
must trust to the discretion
of the settling Officer for the
sufficiency of the grounds on
which it has been subjected
Of the other sums included
in this item that of Fajil
or overpayments referred,
/No 3019/ is the only one of
which the nature is not very
clear either from your explana-
tion or the Acting Collector
The plan of collecting the full
rates in the preceding year
pending the sanction of the
Rev. Government and after-
wards refunding their Exces-
s was one likely to lead to con-
fusion. Such Sanctions should
be considered to have prospec-
tive effect only - As it is, it
does not appear why, if $\frac{2}{3}$ rd
of the Excess was refunded
without requiring special san-
ction, the remaining $\frac{1}{3}$ rd might
not have been so, also, and the
Govt apprehends that the
Excess from whom it was
collected

collected, were thus irregularly
distributed with -

9. The only other item in
the Acting Collector's Summary
of the Causes of decrease,
which calls for notice is that
arising from the introduction
of the new Assessment, the
net amount of which is the
-sum 3,3674. Of this it may be
sufficient to remark that it
will not be considered a ne-
-cessary sacrifice if it is fol-
-lowed by all those eventual
benefits which the Govt. has
been led to expect from such
measures.

10. Some of the items of
increase as enumerated by the
Acting Collector call for the
same remark as to their im-
-perfect classification as the
item of decrease already stated,
there is nothing however in
their details, as more clearly
exhibited in the subsequent ex-
-planatory Correspondence, which
remains

Rev. Commr's Summary 10.
Colr - - - - 1.

27. 12. 1846, No. 12.
1846, No. 12.
and to the 31st July
1846, No. 1031, Summary 7

New Comm. "para. 14.
Act of 1862, later. 1867
of 14th June '66.

New Comm. "para. 5.
Colo. - - " 2.

Requires particular notice.

11. The mode of stating
the value of subordinate
actions in abbreviated
language in statement ~~to~~ will
be determined by the result
of the reference to which you
allude.

12. The point is doubtful
whether such indefinite terms
as "Subordinate", or phrases
little realized by the claimants
direct from the State, should
be included in statement ~~to~~
at all. He apprehends they are
not so in other countries,
and whatever practice is fol-
lowed in respect to them should
be so uniformly throughout.
He would desire to be furnished
with your opinion in consul-
tation with the New Comm.
The Southern Division on this
point. In the mean time he can
only remark that such import-
ant alterations in the matter
of these statements as the
instruction

instruction of a large item
like this should not be made
by the Collectors without pre-
vious reference to your De-
partment.

43. The Amount of Remissions,
although less than in the pre-
ceding year, would appear
very heavy if viewed, with re-
ference to what can be ga-
thered as to the character of
the losses from the accidental
entries in the Reports. In looking
into the details of this item
however as given in the Acting
Collector's 3^d para the Envis-
-aged property so called, that
is, an account of failure of
crop, poverty, losses by fire &c.
do not appear to have amounted
to quite $\frac{2}{5}$ of the whole. The
Remissions, such as numbers
1, 6, 7 and 9, are rather of a
nature to have been excluded
from the Realizable Revenue
in making the settlement.
It is desirable that a uniform
procedure

Rev. In. 10 para. 16.

Col. - " - 3

practice should be followed
in this respect in all Colle-
-ctorates, otherwise erroneous
conclusions may be drawn
from a general comparison
of the amount of business
in each without taking into
consideration the difference
in the items which are classed
under that head. This remark
applies especially to the first
and largest item in the list,
for if there is any good reason
for including the rent of
cultivated lands in the
assessable income at all, it
is not apparent why it should
not hold equally good for its
counterpart without business.

14 The collections on account
of the Canal you appear to
have been made with scrupula-
-rity. Considering the com-
paratively small amount of
succession duties which it is
desired to give in this collection,
and which obliges the collector

to retain a large amount
in hand towards meeting the
needs of the coming season.

It is remarkable however,
as pointed out by you, and
in the absence of explanation,
not creditable to the manage-

Rev Com^{rs}, Jan 23-

ment of the local Officers, that
more than one half of the
current years balance should
have been in the New York
Taluk where the Assessment
had been so much reduced
by the Survey - The Genl^l Ap-
-proves of your intention to
circulate Mr Goldsmith's
order on the subject of making
the collections among the other
collections of your Division.

15- The amount of bal-
-ances outstanding for former
years is very large; of these
indeed a considerable portion
is explained to be left unad-
-justed pending the settlement
of the Comtee claims of the
parties

Rev Com^{rs}, Jan 27.
Col^l " " 406.

partless from whom they are
done on the Customs Estimates
discontinued - but the position
for which no such cause is
assigned is larger than it
ought to be, and the Govt.
helps the Engineer with a
view to its early adjustment
have been or will be actively
pursued. He sincerely trusts

your Office will that every
information regarding the cir-
cumstances of such balances,
and the mode of their disposal,
should be furnished by the
Officer by whom the Engineer
are conducted.

10- The irregularity of the
Revenue adopted for paying
the remuneration of certain
Village Officers to which you
allude has been separately
presented on as special
cases can be before Government.
Under the circumstances of the
case however the Govt. will
not withhold his sanction

Rev. Secy. to Govt. 20

14. The close of this lecture
is given in Statement B.
and therefore, leaving for
future disposal the item of
the Khondgoh jagir dar, on
which you require further
information, he is pleased,
in compliance with your
recommendation, and under
the circumstances detailed
in Statement B, to sanction:

the writing off the consideration
of the unrecoverable items to
the amount of Rs. 4772-5-9-
17.

The state of the Finance
Account as exhibited in State-
ments C and D is satisfactory,
whatever may be the cause of
the little credit to the credit
-line of and in the credit to
the P. & F. being it as a favorable
circumstance, it being desirable
that the P. & F. should be
accounted to the P. & F. as
as possible to their own accounts.
Resources.

18. The sanctioned grant
of

Res. Com. 12/10/29. 289 29.
C.M. - - - 78-8.

of a single Cultivation. The
only manner is led to infer
from Mr. Mansfield's Report
that they have been divided
Arbitrarily and the State of
"conspiracy made to conform
to these Arbitrary divisions -
several independent holdings
being thrown into one field and
entered in the name of one
holder to the exclusion of the
other. Such an arrangement
the Govt cannot but apprehend
will be distasteful to the Cul-
tivation and likely to lead
to ^{oppression and} much ^{unjust} ^{assessments} ⁱⁿ ^{justice}
- he would therefore desire
to be more fully informed as
to the circumstances & grounds
of its adoption before it is
more extensively introduced.

20. Mr. Mansfield's Man-
-age of transfers of the debts
of Govt. to its creditors in
order to clear its liabilities
with the Dyots, was also irregular,
as already remarked by you
and

7 June 1831
Letter - 17.
Mansfield's Report - 4

Col^{rs} - - - - - 24.
Mr Mansfield's - - 25.

and the Collection, and which
lead to Confusion in the
as well as otherwise. ~~21.~~
21. The Genl is disposed
to participate in the doubt
expressed by the Acting Collector
as to the propriety, in the
existing State of the Law, of
enforcing an Extra Assessment
for the Repair of water works, as
proposed by Mr Mansfield, and
he thinks the Expedient suggested
by the Acting Collector of pro-
viding for its eventual recovery
by a special bond in each case
bringing it within the operation
of a Civil Action would be in-
convenient in practice, and
not one for Government to
resort to. He also entertains
doubts as to whether the Charge
of such Repairs should be im-
posed on the Dykes in addition
to their otherwise heavy contri-
butions to the general expenses
of the State. But an opportunity
for separately considering these
questions

questions will come in review.
 A correspondence recently
 submitted by you on this subject.
 Before again authorizing
 any abatement in the sums placed
 at the disposal of Collectors and
 their assistants for expenditure
 in public works, the Govt would
 wish to be favored with your
 opinions and that of the Revenue
 Commissioner of the North-western
 Division as to the sufficiency
 of the present sums with refer-
 ence to the extent and mode
 of their appropriation hitherto,
 and the modifications, if any,
 which it would be desirable to
 make in them. The regulation
 of their amount however can-
 not with propriety be made
 to depend on the zeal and energy
 of the Officers by whom they are
 to be disbursed, although it
 may be advisable to accommo-
 date it in some degree to the
 circumstances of the several districts.

23. Any proposition for
 saving the passengers across
 swimming beds of shells on the
 frequented lines of road may
 be submitted in the usual man-
 ner for discussion and discussion
 on their merits, but the Genl.
 is led to apprehend from the
 result of a work of this kind
 projected by Captain Graham,
 the Lane's Engineer to whom Mr.
 Green alludes, in the Boston
 poor Magazine of Cambridge,
 that it is in some localities
 a more difficult and expensive
 operation than Mr. Mansfield
 seems to anticipate -

24. The Cotton Experimentation
 has been the subject of so much dis-
 seminate correspondence since the
 date of these reports, and have
 undergone such full consid-
 eration as to make it unnecessary
 to notice them on this occasion.

25. There is perhaps more
 truth than novelty in Mr.
 Mansfield's remarks on the
 difficulties attending the sub-

- statement

Settlement of Missions, but
this too is a subject which has
been separately and more recently
discussed, and on which the
Sentiments of Government will
be communicated to you.

26. Mr. Fries' remark as to
the impaired efficiency of vil-
lage institutions under our
Government, although somewhat
generally expressed, is probably
intended to convey no more than
the result arrived at by you, that
^{assuming it}
~~with the substitution~~ a more
strict control in this and all
branches of Administration
we have incurred the Conse-
quent Sacrifice of ~~the~~ Liberty,
for greater freedom and in-
dependence of action and con-
sequent energy and zeal in our
agents. The change is perhaps
inevitable from our system,
but we should endeavor to
prevent it from being more
detrimental to the interests
of the Country than is absolutely
necessary.

Rev. Com^{rs} June, 38 @ 40.

Col^{rs} — — — — — 35.

Mr. Mansfield — — — 57 @ 60.

Mr. Goldfrank — — — 10 @ 14.

necessary. The Gov. however
does not perceive how this con-
sequence will be apprehended
or anticipated by you, by the
operation of Act II of 1843.
Suspension from Office and
exclusion for three months
is a sufficient punishment
for minor offences, and dis-
missal for more serious ones.
Cases may perhaps occur in
which some middle course
would be more suitable, but
the Gov. does not think they
are likely to be so numerous
on the absence of a provision
for them of so much import-
ance as to lead to the con-
sequences you apprehend. He
does he perceive how the pro-
visions of Sect: V of the Act,
which are directed to a dif-
ferent object, could as sug-
gested by you be made avail-
able to supply the deficiency
if it be one.

Rev. Comm. - p. 44.
Coler - " - 39.
Mr. Colclough - " - 15.

27. You have been made
aware

by a separate Com-
missioner that any such

that of the Civil Auditor.

35. Your reply to the reference
as to the plan to be adopted
in regard to the value of the
amount of contributions for the
year in the individual accounts
of the Agents has ~~been~~ been
received, and will be considered.

36. The G. & C. Auditor with
pleasure the testimony borne
by the Acting Collector to the
value of the assistance he
has received from Messrs. Hume-
field and Goldsmith, and
conveys in the favorable refer-
ence drawn by you from the
reports of those officers as to
their zeal and efficiency.

37. The Taper Services ex-
hibit a decrease of \$2,587.27
or deducting the less amount
of Commission \$2,590.50.

38. This preponderance on

The rate of decrease is, with the
exception of a falling off in
the Atlantic, entirely caused

by the abolition of taxes under 36

act ~~11th~~ of 1840. The effect

of which has been counteracted

by a considerable increase under

other kinds, principally Ab.

Warre, judicial Disputes, and

Profit and Loss.

39. Of these the Abkane is

the only item which has received

on perhaps calls for particular

notice. The increase exhibited

under it is stated at \$22,497.

It has become a general prac-

tice for Collectors to accompany

their Report of any increase under

this head with a declaration

of Satisfaction at the result.

An increase in the tax on either

the abuse of Spirits is certainly

to be deprecated, and where an

increased Revenue is indicative

of this, the Cause which leads

to such a result whatever it

may be is to be regretted, and if possible removed; but we must be careful in this line to distinguish between cause and effect, and not to react with dissatisfaction a mode of taxation the natural tendency of which should be to discourage the consumption of the article which it affects, however that may be counteracted by other circumstances, the existence of which it should be our business to trace out and provide against. What there may be in the present instance the Report before him does not afford the ground for the exercise of judgment, but he is not prepared to run on among them the operation of the financing system, if that system has a tendency, as seems probable, to drive taxation to its utmost limits.

New York Jan 25 57
Coleridge - - - - -

40. The question of the
management

Arrangement of the duty of
opium for internal consump-
tion is one of considerable
difficulty, and is separately
engaging the attention of
Government.

46. The time seems to be
arrived for the abolition of the
tobacco and snuff monopoly,
as connected with the Reform
recently introduced in our
system of direct taxation,
if it be partial in
operation and inevitable
in result. With a view to the
consideration of this you are
requested to ascertain these
points as regards the collection
under your control, and a
similar call will be made
on the Revenue Commissioners
of the Northern Division - as
also in respect to the excise
operations if any ~~which~~ have
taken place in the taxation
of these articles hitherto.

No. 1534 of 1845.
Financial Department.
Revenue

To,
C. A. Townsend, Esquire,
Secretary to Government,
Bombay

G. M.

I have the honor to submit
a letter, No. 1254, of 16th Instant, from
the Acting Collector of Sharnar,
relative to the Assessment of a
spot of land planted by a person
named Chamarappa bin Kajiappa,
as he states on the oral permission
of the Collector at the time pri-
ncipally on religious motives.
As it appeared from the
Maharatta proceedings, that
no return whatever had been
received from the land in question
- much expense, on the contrary,
having been incurred in planting
the

the trees the fine imposed must.
I thought he considered to be un-
reasonably heavy. I therefore re-
sponded the Acting Collector of the
encouragement given to planting
by Government, suggesting that
if, in accordance with the tenor
of the resolution in para: 2 of their
letter No 82, of 15th January 1842,
relating to the Deian Julias, the
exemption were not allowed,
the assessment be enforced
and be raised to the value
of the land -

3rd Viewing the question in
the light of one of concealed
cultivation, the Acting Collector
does not concur in the mitiga-
tion of the penalty. but as a plan-
tation of trees, from which no
benefit is derived, can hardly
be so viewed, and the Amount
moreover, would still be ex-
cessive, there does not appear

to me the satisfactory grounds
for rejecting the appeal of the
Complainant, and I am, ac-
cordingly, induced to submit
his case for the instruction of
Government.

I have the honor to be,
Sir,

Rev. Comm^r S. D.

now free or rated at eight annas
an acre as he had planted the
trees and repaired an old well
on the ground
3d Mr. Martin consequently
petitioned having taken a field pro-
cession of the land without leave,
ordered the highest rate to be fixed
upon it and consequently at
Rupess sixteen, annas three & No. 16-31,
his claim here was the sum of
Rupess thirty and a half three, No. 253-14
annas fourteen, and his eight
was recovered from him as the
year 1840 to 1843 and in 1844
Rupess six & a half three, annas ten and No. 63-7,
his eight was recovered as due.
and for that year the worth of
the land appears to be about Rs
two, or two and a half according to Mr. 2 or
the present rates of the village,
and petition of Sir Brown stop.
4th Your opinion as expres-
sed in your Memorial annexed,
that

that the sanction of Gov^r is not
he obtained for copying them.
part of the time, & secondly
this is not the only instance
which petition of his late majesty
of a kind without authority. I do
not think I should be justified
in requesting you to say the same
before Gov^r, the petitioned is a
Pisoner, I am informed, in every
circumstances and one who
ought to have had no merit
in applying for what he
is wanted and if we only
make for him a servant for all his
increased cultivation and the
I am not those who cultivate an
under those circumstances, he are
not I think doing justice.

5th The petitioned took upon
himself to cultivate the land
without asking for it and without
paying for it. The village offe

I do not think that any credit is due to the
operation of Chumvaca that he acted under
an oral permission from the Collector. No
man of ordinary prudence would be content to
hold land on so uncertain a tenure. He must
I think be viewed as having held the land without
authority, and simply with the connivance of
the village officers.

The rate ^{charged upon} ~~land in~~ this ground by the
Collector has been Rs 16. 3. 7. per acre - the highest
rate for garden land in Nance Bednore. The rate
certainly has no claim upon Govt. his possession of
this ground was evidently unauthorized - and was
known to the Collector.

Considering ~~how small the area of~~ ^{plant} ground is, Rs 2. 0. 0. per acre, as stated by the act.
Colo., I think that instead of the highest rate of
the old agreement - the average rate levied under
it in the town of N. Bednore would be sufficient. -
The Mus. Com. should ascertain & report, how much
that will be. I do not think that Chumvaca
should be allowed to have held this ground
rent free; nor that he has any right to a reduction
so low as the new agreement rates - for any period
previous to their introduction.

3. 12. 1875
J. H. C.
L. M.

I do not think that any credit is due to the
operation of Chumosepa that he acted under
assured permission from the collector. No
man of ordinary prudence would be content to
hold land on uncertain tenure. He must
I think be viewed as having held the land without
authority, and simply with the connivance of
the village officers.

The rate ^{charged upon} ~~land~~ ^{this} ground by the
Collector has been Rs 16. 3. 7 - per acre - the highest
rate for garden land in Nance Nedmore. The fact
certainly has no claim upon Govt: his possession of
this ground, was evidently unauthorized - and an-
-nounced to the collector.

Considering however that the new agreement on this
ground is ^{present} Rs 2. 0. - per acre, as stated by the act.
Colo., I think that instead of the highest rate of
the old agreement the average rate levied under
it in the town of N. Nedmore would be sufficient. -
The Hon. Secy. should ascertain & report, how much
that will be. I do not think that Chumosepa
should be allowed to have held this ground
rent free; nor that he has any right of deduction
so low as the new agreement rates - for any period
previous to their introduction.

(E. H. M. S.)
J. H. S.
L. M.

I do not think that any credit is due to the
action of Chumceapra that he acted under
verbal permission from the Collector. No
man of ordinary prudence would be content to
hold land on so uncertain a tenure. He must
I think be viewed as having held the land without
authority, and simply with the connivance of
the village officers.

The rate ~~levied upon~~ ^{charged upon} this ground by the
Collector has been Rs 16. 3. 7. per acre. The highest
rate for garden land in Nance Bednore. The petitioner
certainly has no claim upon Govt. his possession of
this ground is evidently unauthorized and un-
known to the Collector.

Considering however that the new assessment on this
ground is ^{present} Rs 2. 0. per acre, as stated by the act.
Colo., I think that instead of the highest rate of
the old assessment the average rate levied under
it in the time of N. Bednore would be sufficient. -
The Govt. should ascertain & report, how much
that will be. I do not think that Chumceapra
should be allowed to have held this ground
rent free; nor that he has any right to a reduction
so low as the new assessment rates - for any period
previous to their introduction.

To A. 5342 F. H. P. ⁴⁹ Revenue

W. H. Lane Esq.
Rev. Comm. Secy.

I am directed to acknowledge the receipt of your letter, (L^{tr} 1534) dated 25th L. P. last, handing up one from the Asst^d Col. of Chennai and with reference to your report, dated 16th Ult: I am directed to inform you that the H. E. does not think that any credit is due to the attention of Chennierapa that he acted under a verbal permission from the Asst^d Col. ^{and} no man of ordinary prudence w^d be content to hold land on so uncertain

2

a tenant. He must ^{therefore} be
viewed as having sold
the land without author-
ity, ~~and~~ ^{this} ~~completely~~ with the
concurance of the vl.
lodge officers.

2. The rate charged
upon this ground by
the Cst^y has been P. 16.3.7
per acre. The highest rate
for garden land in Pa-
rice Medinan. The pe^r l.
~~has in the opinion of H. H. in cl.~~
~~been reduced further to~~
insufficient. There has no
claim upon Govt.
^{since} the purchase of this
ground, that, as has
already been observed,
~~and~~ ^{is} ~~unauthorised~~
and unknown to the Cst^y
3. Considering how-
ever that the new as-
essment on this ground
is about P. 2.8. per
acre as stated by Mr
Freese
